**What's New in 10.5** ..... **4**

## 2. What's New in 10.5

### NEW

#### Netwrix Auditor Access Reviews

Make sure only the right users have access to sensitive data while saving the valuable time of your IT teams by delegating user access reviews to data owners. See [Integration with Netwrix Access information Center Overview](#) for additional information.

#### Microsoft Teams Auditing

Gain confidence that your Teams environment holds the doors shut on sensitive data while remaining a convenient collaboration platform. See [MS Teams](#) for additional information.

#### Netwrix Auditor for Qumulo and Synology

Enhance security by getting insight into overexposed sensitive data and user activity on your Qumulo and Synology devices. See [Supported Data Sources](#) for additional information.

### MAJOR ENHANCEMENTS

- Netwrix Auditor for SQL Server now monitors and reports on activity in Always On availability groups.
- Netwrix Auditor now supports SharePoint Online tenants in GCC and GCC High environments.
- Changes to retention labels in SharePoint Online can be monitored and reported on.
